PRICE FIVE CENTS

WILSON AGAIN VETOES DAYLIGHT SAVING LAW

PROBE OF COAL PRICES ORDERED BY THE SENATE

THOROUGH INVESTIGATION BE MADE BY INTERSTATE COMMITTEE

Anti-Alien Bill Offered WOULD LIMIT IMMIGRATION FROM ALL BUT AMERICAN COUNTRIES

(International News Service.) WASHINGTON, Aug. 15.—Action on Attorney General Palmer's request for wider powers in prosecuting profiteers was again delayed today by the senate agricultural committee. "I am afraid if we vote now we would have to reject the attorney general's proposition," said Senator Smith of Georgia, who asked that action be deferred.

(International News Service.) WASHINGTON, Aug. 15.—An investigation of coal prices and production was ordered this afternoon a resolution instructing the interstate commerce committee of the senate to conduct such a probe was unanimously adopted.

(International News Service.) WASHINGTON, Aug. 15.—Asserting that daylight savings ministers to economy and efficiency and that the pressing need of the country is for increased production, President Wilson today vetoed the bill which would have repealed the daylight savings law.

(International News Service.) WASHINGTON, Aug. 15.—Revoluntary changes in the immigration laws are proposed in a bill introduced in the senate this afternoon by Mr. Dillingham, of Vermont. The measure provides that after July 1, 1920, the number of aliens of any nationality who may be admitted annually to United States as immigrants shall be limited to 5 per cent of the number of persons of such nationality already residing here. The proposed restriction does not apply to immigrants who are natives of the countries of the western hemisphere, and certain professional classes are exempted. The secretary of labor would also be given power to admit aliens in excess of the stipulated number when his opinion was that such action was justifiable as a measure of humanity.

Hartselle and "Y" Scrubs Meet Today

Fourth Game of a Series of Six Will Be Staged.

With Gordon, a recruit pitcher, and Howard catcher, the second Y. M. C. A. team will meet Hartselle at the ball park this afternoon. Burleson and Burleson are expected to run the battery for the visitors. The game will be called at 4:30, according to Wilson Thompson, the manager, and will be the fourth of a series of six games with Hartselle. The third game played at Hartselle Thursday afternoon was won by Hartselle 8 to 2. The second game, played at Hartselle on Wednesday, was won by the "Y" boys by a good margin.

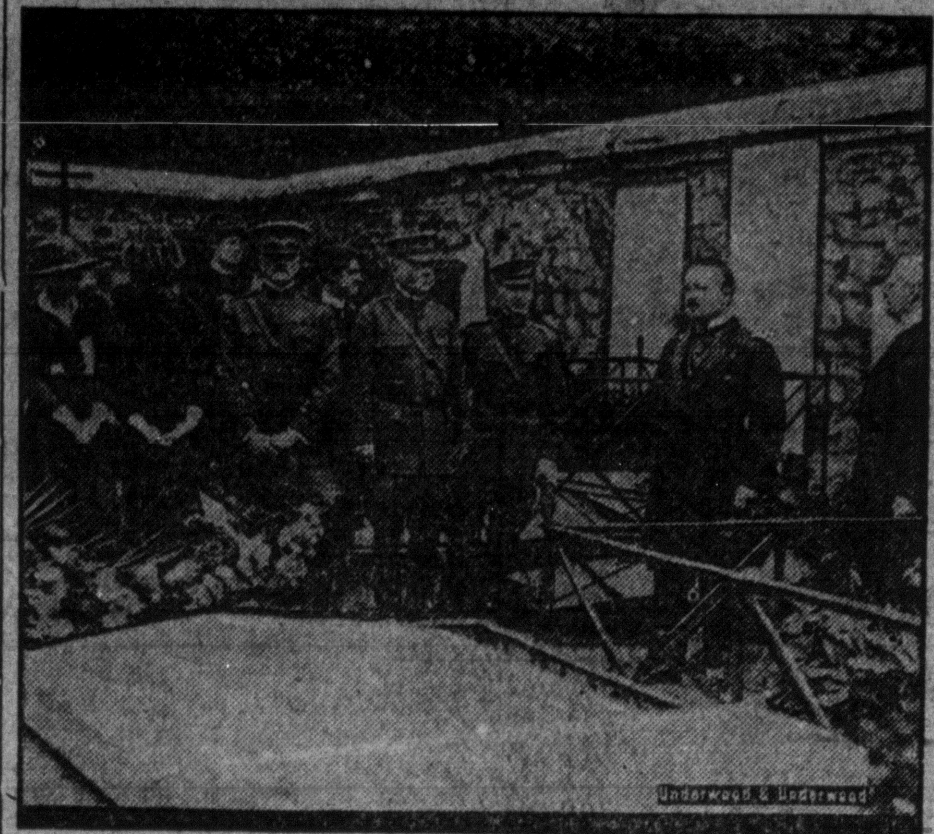

The local boys will also play Hartselle on Saturday and they express the hope that they will "cop" both games.

FORNEY JOHNSTON AFTER 6 PER CENT

APPEARS AT REPRESENTATIVE OF OWNERS RAILROAD SECURITIES

(International News Service.) WASHINGTON, Aug. 15.—Declaring that congress must give constructive relief to the railroads of the country or look upon the plunging of the railroads into bankruptcy or government ownership, Forney Johnston, of advisory counsel to the National Association of Owners of Railroad Securities, today told the house interstate commerce committee that the Warfield plan for a minimum return of 6 per cent on railroad capital offered the only immediate solution of the problem.

AMERICANS AT LAFAYETTE'S TOMB

General Pershing, with other American officers, at the tomb of Lafayette on July 4, while Captain Tardieu, representing the French government, is responding to an address by Ambassador Hugh Wallace.

Baker Rides in Cab With the Father of American Soldier

Riding part of the distance from Chattanooga in the engine's cab, Secretary of War Newton D. Baker, passed through Decatur yesterday afternoon en route to Sheffield, where he is inspecting the Muscle Shoals government operations today.

Secretary Baker was a passenger part of the time of Engineer L. D. Howland, of Tusculum, and whose son, as a member of the American Expeditionary Force, met Secretary Baker in France. The head of the war department was accompanied by Congressman Edward B. Almon, General Harry Taylor, engineering corps; Col. George D. Roberts, deputy U. S. nitrate administrator; Col. James H. Nunn, acting chief of the nitrate division; Major D. F. Gilford, statistical officer of the nitrate division, and Captain J. M. Hoffman.

The party was met at the Sheffield station by representatives of the Sheffield and Florence commercial organizations and the commanding officers of the government reservations there.

Green Grocery Co. Has Two Telephones

The Green Grocery Company, owing to its expanding business, has installed two telephones, the numbers being Albany 564 and 565. The number incorrectly given in the firm's advertisement in yesterday's Daily was the former number, which was changed when the dual wires were put in.

Gasoline Skidding; Coal Oil Still Up

Here's good news for the motorists. Gasoline, in line with several other commodities, has gone down in price one cent a gallon and today is 25 1/2 cents.

Coal oil, however, is still climbing and shows no signs of weakening on the present "bear" market.

INTERVENTION WITH ARMS IN MEXICO IS NOT CONTEMPLATED

(International News Service.) WASHINGTON, Aug. 15.—Armed intervention in Mexico is not contemplated by the United States at the present time. Any change of policy toward the Carranza domination will not involve use of either the army or navy under present plans. Reports that troops have been massed along the border in anticipation of any invasion of the republic south of the Rio Grande are without foundation, officials declared today.

BARNES AND BAKER CAUSE DOWNFALL OF LAWRENCEBURG

LOCALS WIN FROM TENNESSEANS 6 TO 3, COUNT TRIO IN NINTH.

Baker Clouts a Triple BARNES HAS LAWRENCEBURG HEAVY HITTERS ON HIS HIP THROUGHOUT.

LAWRENCEBURG, Tenn., Aug. 15. (Special).—N. Baker's screaming triple in the ninth, cleaning the bases, broke Lawrenceburg's heart today, the Albany-Decatur team winning a thrilling contest 6 to 3. Barnes hurled for Alabamians and had Lawrenceburg on his hip all of the way, poor support accounting for their only runs. Cocks, who pitched for Tennesseans, was hit hard and opportunely. The Albany-Decatur team got away to a one run lead in the second, but Lawrenceburg tied it up their half of the inning. The Tennesseans counted twice in the fourth, but in the sixth N. Baker's bit drove across two and tied it up again. Neither team was able to untangle the knot until the ninth, when Baker again hammered over the winning runs. Baker's hitting was a feature, the clouting infielder getting three hits out of four times up.

Graham, who has been ill, will leave for home today if he is able to travel. Lewis, who has been sick, is improving and may get in the line-up again during the series. Bennett is expected to toe the rubber for the invaders this afternoon. Manager Hames announced, and if Lewis has recovered sufficiently to play infield, Bingham will pitch Saturday, Lewis taking the latter's place at the hot corner.

Yesterday's game was witnessed by a tremendous crowd and a larger one is expected today. The Alabamians have won three of the last five games played with the local outfit and are seriously threatening the championship reputation Lawrenceburg clan had established.

FORCE COMPROMISE ON THE REVENUE BILL

(International News Service.) MONTGOMERY, Aug. 15.—Through the absence of Senator Brown of St. Clair county, the deadlock in the senate finance committee was broken today and the administration members of the committee were forced to accept a compromise report on the governor's revenue bill which eliminates the excess profits tax and submits the income and tonnage tax and new taxing machinery without recommendation. This report was made to the senate during the morning and signified the defeat of the administration forces, which have made a strong fight for the revenue bill with the new taxes proposed by the governor.

INSTRUCTIONS FOR SALE OF ARMY FOOD RECEIVED LOCALLY

QUANTITY THAT CAN BE DISPOSED OF IN TWO CITIES LIMITED

Sale Starts on Monday

FIRST COMERS WILL BE CERTAIN TO GET THEIR ORDERS FILLED

Formal orders for the sale of government owned food which will begin next Monday morning, were received today by local postal officials. An important change in the method of distribution, according to Postmaster Alexander of Albany, is the allotment of certain amounts of the food to each city. This insures each community getting its share of the food, and orders will be accepted until its quota is exhausted.

The following amounts of food have been allotted to Albany, a "ke" amount being allotted to Decatur, and each other second class postoffice in this zone, which includes Alabama, Tennessee, Florida, Georgia, North Carolina and South Carolina:

Baked beans, 1,002 one pound cans; Beans, stringless, 246 one pound cans; Beef, roast, 1,242 one pound cans; 1,380 two pound cans; 120 six pound cans; Cherries, 84 2 1/2 pound cans; Corn, 2,268 two pound cans; Hash, corn beef, 928 one lb cans; 912 two lb cans; Peas, 2,844 two lb cans; Beans, issue, 4,700 pounds; Flour, issue, 1,152 pounds; Rice, 200 pounds; Jam, assorted, two pound cans, 540; Pepper, 964 lb cans; Soap, toilet, cakes, 300; Soup, vegetable, pints, 144; Pineapple, small cans, 186; Tomatoes, 10 lb cans, 156; Bacon, 12 lb cans, 507.

The full price list will be published tomorrow in the Albany-Decatur Daily and is now on file at all local postoffices and sub-stations. Articles not appearing on the above allotment list cannot be ordered, even though they appear on the price list, as the supply is insufficient for general distribution. All orders from consumers must be written in duplicate. The receipt of the postal employee taking the order will be written on the duplicate and returned. Cash must accompany order, for the amount of the groceries ordered plus parcel post charges.

The sale will continue until the allotment as given above is exhausted but the public is warned that the quota of Albany and Decatur will be exhausted probably the first or second day of the sale and consumers who order first will be the lucky ones.

40,000 Fans Out to See Giant Battle

(International News Service.) POLO GROUNDS, N. Y., Aug. 15.—All attendance records were broken at the Polo Grounds this afternoon when the Reds and Giants clashed in their third double-header of the present all-important series. More than 40,000 fans jammed the big stands when the players opened the battle to break up the tied series. New York won yesterday's contests, tying the present series.

McGraw pitched Barnes, while Eiler was on the mound for the Reds. Cincinnati 100 30—New York 100 00—

New Store Opens Its Doors Saturday

EMENS & DI RAGO BEGIN BUSINESS ON SECOND AVENUE

Emens & Di Rago, Albany's newest ready-to-wear store, will open for business tomorrow in the Second Ave. building formerly occupied by Pointer & Rauschenberg. Frank Emens, well known here and in Trinity, his home, will be actively in charge. In a page advertisement in today's Daily the firm announced a bargain sale of ladies' suits and waists.

STAGE HANDS THREATEN STRIKE; MAY DARKEN NATION'S THEATRES

(International News Service.) NEW YORK, Aug. 15.—Every playhouse in New York and possibly the country may be forced to close indefinitely if the members of the International Stage Hands Union carry out their threat to go out in sympathy with the striking actors and actresses. The possibility of such a walk-out loomed nearer today, with both the managers and the strikers more determined than ever to stick to their colors.

FORTY ARRESTS IN OHIO PROMISED BY GOVERNOR COX

VIOLATORS OF FOOD LAWS WILL BE ROUNDED UP

After Storage Meats MILLIONS OF POUNDS ARE BEING HELD IN VIOLATION OF LAWS

(International News Service.) COLUMBUS, Aug. 15.—"There will be forty arrests in the next hours," covering ice offenses for food hoarding and profiteering in Ohio," Governor Cox made this statement to the press at 9:30 o'clock this morning. "In addition to these arrests, I will report to the federal government today evidence which shows that there are millions of pounds of meat in cold storage in Ohio, which have been held beyond the legal limit," declared the governor.

As the governor gave out this statement officers were busy serving the warrants in many sections of the state.

TRIBUNE TO PAY FORD SIX CENTS

NO CONTEST OF DAMAGE JUDGMENT IN FAMOUS LIREL SUIT

(International News Service.) MR. CLEMONS, Mich., Aug. 15.—Attorneys for the Chicago Tribune, it is considered certain today, will accept without contest the verdict of 6 cents damages awarded Henry Ford by the jury which heard the prolonged and bitterly fought Ford-Tribune \$1,000,000 libel suit. The verdict was returned in court at 8 o'clock last night.

Considerable interest was manifested today in the cost of the suit. Summarized the estimates are as follows: To the state of Michigan for maintaining court, \$10,000; to the Tribune, \$45,000; to Mr. Ford, \$300,000.

CANADA WELCOMES PRINCE OF WALES

GREAT RECEPTION GIVEN TO BRITISH HEIR AT ST. JOHN'S N. B.

(International News Service.) ST. JOHN'S, N. B., Aug. 15.—In a driving rain-storm and under a canopy of dull gray fog, the Prince of Wales landed here today to receive formal and official welcome to Canada. In spite of the inclement weather, the demonstration was such as Canada has never seen before. Thousands gathered on the water front and cheered themselves hoarse as the youthful soldier-heir to the British throne stepped upon the soil that he will some day rule over. The warship Dragoon which brought the Prince down from St. John's, N. F., made her way cautiously through the fog.

Huntsville Meets Locals Three Times

Huntsville will open a three-game series here Monday with the Albany-Decatur team, Manager Hames announces. The Huntsville squad was defeated in a double-header recently by the locals on the Huntsville lot.

STATE DEMOCRATIC COMMITTEE WILL DISCUSS SUFFRAGE

MEETING CALLED TO BE HELD IN CAPITAL ON AUGUST 21st.

Patterson is Notified

HOMER S. CUMMINGS, NATIONAL CHAIRMAN, WILL ADDRESS ALABAMA MEETING

A. G. Patterson, member of the state democratic committee, has been advised of a meeting of the committee called for August 21. The session will be held in Montgomery. Homer S. Cummings, national democratic chairman, will address the Alabama committeemen in connection with the suffrage question. The conference of the committee was called at the request of many of its members, it is stated. Letters were sent to the committeemen asking whether or not they wished a meeting and following receipt of their answers the meeting was called.

Suffrage is Up. Local observers of the political situation expect an active fight to be waged before the leaders of the democratic machine in the state when the committee gets down to business.

In the face of a telegraphed statement from President Wilson asking the Alabama solons to ratify the Susan B. Anthony amendment, the measure was defeated by the legislature. Wednesday the republican representatives in the lower house and the lone republican in the senate notified Mrs. Solon Jacobs, one of the suffrage leaders, that they would vote for the adoption of the suffrage act if the democratic solons allow it to come up again. Advocates here of the adoption of the measure fear the failure of democratic states to give the ballot to women will endanger the national party organization.

Twin City Paper Has Young Sporting Editor

BARRETT SHELTON COVERING GAMES WHILE TEAMS ARE ON THE ROAD

(Columbia Herald) Barrett Shelton is probably the youngest sporting editor in the Southern League. He is a son of W. R. Shelton, formerly of The Herald star but now one of the owners and manager of the Albany-Decatur Daily. Young Shelton is following in the footsteps of his dad as a good newspaper man. He is covering the games being played on a tour by the Lawrenceburg and Albany-Decatur teams and was in Columbia Wednesday. His scoring and notes are responsible for the detailed report of the game in The Herald today. The lead to the story, however, was not based entirely on his opinions.

Legion Will Meet on Tuesday Night

The committee on by-laws of the Morgan county post of the American Legion is expected to be ready with its report Tuesday night, when the next regular meeting is held.

Street Car Men On Another Strike

REFUSE TO ACCEPT AWARD AND WALK OUT AGAIN

(International News Service.) PITTSBURGH, Aug. 15.—For the second time in less than four months, Pittsburgh today was without street car service, because of a strike of the 3,000 employees of the Pittsburgh Railway Co.

The men quit work at midnight, despite an agreement that they would abide by the award of the national war labor board which only a few days ago granted them an increase of 6 cents an hour. The men now demand an increase of 12 cents an hour with a minimum scale of 60 cents. The car company is now in the hands of a receiver, and any increase would have to be approved by the United States district court.

ANNOUNCEMENT
(Paid Political Advertising.)
We are authorized to announce Hodges Crow as a candidate for Tax Collector of Morgan county, subject to the Democratic primary. Your vote and influence solicited.

MEXICO IS GIVEN A NEEDED WARNING

The suggestion, contained in a note to Mexico City from the state department, that this government "may be forced to adopt a radical change in its policy towards Mexico," is the most business-like move ever made to curb the activities of bandit gangs below the border. While not technically an ultimatum, the note is a warning that Carranza and his satellites must not overlook, unless they wish to have Uncle Sam maintain that order that has been conspicuously needed in the land of the Montezumas for many a day.

Just prior to the entry of the United States into the world war, the desire to avoid entanglements both at home and abroad led President Wilson to adopt his famous policy of "watchful waiting." As unusually flagrant invasion of Texas towns caused a slight armed demonstration, but this was in reality merely a pretext for mobilizing the national guard for sterner duty across the seas. It has been found that "watchful waiting" does not appeal to the Greaser, who is prone to mistake leniency for weakness and who has no conception of power that is not exercised. It is no doubt true that the illiterate peons who blindly follow the leadership of such brigands as Poncho Villa, fondly imagine that the "Gringos" are but a puny set, or else they would long since have wiped out their kind. And it is to dispel this false idea that it has become necessary to make a show of force, to talk fierce and to run a few outlaws to death.

Just now the American army has but little else to do, and could spend a few weeks profitably in Mexico teaching the doctrine of obedience to law and responsibility for foul crimes against citizens of this patient republic.

SIX CENTS BALM FOR HENRY FORD

The general public missed their guess just five cents when a jury at Mt. Clemens, Mich., following a hearing that was dragged out over a period of three months, awarded damages in the sum of six cents to Henry Ford, in his million dollar libel suit against the Chicago Tribune. For some reason, strange and unknown, the jury went the conventional judgment of one cent a jitney better, probably figuring that the value of the "copper" decreased almost 100 per cent since the day that Theodore Roosevelt collected his penny piece from another periodical that had assailed his character.

The verdict was a vindication for Ford, who already had been vindicated by popular sentiment of any tendency toward nihilism, and who never was suspected of becoming a "red." When the Tribune dubbed the automobile-maker an "anarchist" it simply meant that from its standpoint—the standpoint of the capitalist and the plutocrat—any person who lifts a voice in behalf of labor or who gives back in the way of wages money that it had extracted from business by legal methods is a destroyer of sacred customs and the enemy of profitable pilfering. The jury viewed it that way, and consequently allowed the Tribune to retain its lucra but forced it to disgorge its spleen and to admit that it was licked.

The American people are strong for an outspoken and untrammelled press, and for this reason very moderate judgments are invariably returned in libel suits, unless extreme malice is shown.

Let Action Follow Thought.
A philosopher once said that there is no value to any thought, no matter how fine or noble, unless it is transformed into action. If you feel uplifted by beautiful music, do something that will tally with your mood, and then the music has been worth while. If you read something that is inspiring, at once do something, no matter how small, that is a little different and a little superior to your routine. The theory applies with equal truth to the reading of books as more than a pastime.—Chicago American.

TODAY

DARK NEWS.

GAMBLERS' PRICE FIXING.
COULD THE NAVY FISH?

Nobody, it seems, loves the packers. Chaos and Old Night are settling down upon them, perhaps. They will be prosecuted by the government, criminally prosecuted, maybe. But a tiny streak of light shines in the darkness. The lawyer selected to prosecute these gentlemen was engaged in a famous attack on the New York Street Car Trust. Let the packers read back about the things that did NOT happen to the street car men on that occasion and cheer up.

Never was the street car monopoly more prosperous or safe than after the "relentless investigation by the firms that is now going to investigate the packers. In fact, after that investigation the street car people repudiated two hundred and fifty millions more from New York City's pocketbook, and just now the same trust is busy raising fares and refusing to recognize unions, in the good old way.

The packers will find comfort, also, in studying the history of the Standard Oil since that benevolent organization was prosecuted and investigated. One of its little branches, the Atlantic Refining Company, with stock selling at fourteen hundred dollars a share has just announced an issue of forty-five million dollars more common stock and twenty million dollars more preferred stock—on all of which the good public will pay dividends. Another little branch out in California pays the Standard Oil people sixty per cent a year or more. To be prosecuted, by the United States, does not necessarily mean interference with trust prosperity.

A street car strike separates the two million inhabitants of Brooklyn from Manhattan Island. All kinds of vehicles are used, from ice wagons to old-fashioned hansom cabs. But nobody would ride in the hearse that one speculator brought out hopefully, which shows the interesting power of superstition. A famous Indian chief in Oregon, friend of the late Homer Davenport, was not so fussy. When the Western livery stable man sold out, the chief bought the white hearse, with the plate glass sides, took his squaw and papoose galloping all over the prairie inside of it, and later was himself buried inside, the hearse being hung up in the branches of a big tree.

While everybody from the president down talks about making food cheaper, the Board of Trade report reads, "Corn and pork shoot skyward." There was wildness to buy on the part of the gamblers, and the prices jumped up. One question would seem to be how long is the price of food to be regulated by gambling operations?

In England they threaten not only to punish profiteers but to take from them and use for public purposes the billions of illegitimate profit already accumulated. That would be rather too strong medicine for this country, where the dollar is as respectable as was the famous hat before William Tell snubbed it. In England, where they have a government of organized workmen temporarily directed by Lloyd George, they have learned to do things thoroughly.

Robert Jackson, in his fishing schooner, Liberty, arrived in New Bedford, Mass., on Wednesday with 102 swordfish, weighing 20,000 pounds. At 26 cents a pound, they brought \$5,200, one thousand dollars for each of the five men on board the Liberty.

The ocean is filled with such sword fish and other fish that might be

transferred to the interiors of American citizens. Would it be unreasonable, by way of solving the food problem, for the government to use some of its boats to haul up these fish with steel nets and sell them at reasonable prices to the public? Or would that be Socialism thinly disguised?

Dozens of craft in the navy are constantly rushing around burning up coal, and burning up money in official salutes. Would it do any harm to let them drag steel fishing nets behind them? They are not in any hurry, now that the war is over. Mr. Daniels is enough of a democrat to try it.

In spite of the high cost of living, the world does improve, and gradually becomes civilized. Frances Sullivan, thirteen years old, confessed that she killed the baby son of her employer. She will not be tried for murder, but only with "being a disorderly child," and committed to an institution to reform her. Not so many years ago she would have been hanged, drawn and quartered as a warning to other children of thirteen.

Just how much the reformatory will reform her is the question. Two young boys in their teens, Paige and O'Brien, who murdered their employer in the most cowardly way recently, and then bragged about it, were both products of reform institutions. Human beings know how to build prisons, asylums and reformatories, but not how to use them. They lock up the criminal atmosphere, then wonder when he comes out a criminal.

Fish Values.

By treating fish oil with hydrogen a chemist has produced an oil suitable for food purposes and a solid substance closely resembling lard, which is tasteless.

Business Poor in the Hamlets.

Turnips—"I say, old chap, what sort of business did you do with your Shakespearean repertoire this season?" Carrots—"Rotten!" "Twelfth Night" didn't see the second night; "As You Like It" wasn't as they liked it; "A Winter's Tale" couldn't be continued; "The Midsummer Night" was frosty; the "Merchant" did no trade, and "The Tempest" swamped us."—Cartoons Magazine.

Town-Talk Flour
It's White

It's
White

THIS is a message to good Southern cooks who demand a real white flour for their baking. You well know that it takes a flour that is white, pure white, to make the most delicious pastries, biscuits and bread. Town Talk meets this demand for a flour that is really white. It is a pure, perfect flour. Thousands of Southern cooks have long known the merits of this flour, and will not be without it. Thousands more will demand Town Talk Flour when they learn that it's white, pure white, and what this means in better baking.

Many housewives of the South prefer a self-rising flour in their baking. To this class of trade we recommend Skylark, which is simply Town Talk Flour in the self-rising form.

Ask your grocer for it today. Insist upon Town Talk Flour, for it's white.

SOCIETY NEWS

Margaret C. Shelton, Phone 682, Albany

Mrs. George Hartung and son have returned from Sheffield, after a visit to her daughter, Mrs. H. L. Turner.

Miss Louise Hartung, who has been at Roanoke, Va., visiting her brother, Fred Hartung, and is now a visitor to Rev. and Mrs. H. L. Turner at Sheffield, will return home Sunday.

Mr. and Mrs. J. M. Herndon are visiting in Birmingham this week.

LADIES OF FAIRVIEW

School Improvement will give the last of the series of ice cream supper at the Fairview School, Saturday evening. A good time is in store for you.

FAMILY REUNION.

Mr. and Mrs. R. E. Messer entertained the Messer family at a fish fry Wednesday evening. Among the guests were Mrs. Elizabeth Ellis and Uncle Joe Robertson.

Mrs. Tom Frosser is at home, after a two weeks' visit in the hills of Tennessee.

Misses Mabel and Alma Hartung are guests of Miss Eva Tate, in Shelbyville, Tenn.

Mr. and Mrs. C. A. Fodders have returned from Cincinnati and Washington.

Mr. and Mrs. W. H. Thompson and children leave tonight for a visit to relatives in Russellville, Ky., and Jackson, Miss.

Miss Gertude Burns has returned to Nashville, after a visit with relatives here.

Dimple Brock, who has been visiting her sister, Mrs. M. A. Dinmore, at Birmingham, will return this week. She will be accompanied home by Mrs. Dinmore.

Mr. and Mrs. J. M. Herndon are visiting their daughter, Mrs. Clayburn Collier at Birmingham.

Mrs. James A. Nelson returned home today after spending two weeks at Trinity mountain.

Mr. and Mrs. W. F. Hamilton are moving into their Johnston Street home today.

Mrs. L. E. Boeglen has returned from a two weeks' stay at Trinity Mountain. She is greatly improved in health. She was accompanied by her son, Durwood.

Mrs. Dick Harris, of Town Creek, and Miss Mattie Ashford of Courtland, were in the cities Thursday.

Mrs. Roy Kelley will go to Sheffield Sunday to join her husband, who has accepted a position there.

Mrs. E. M. Odum and son, Roy, are the guests of Mr. and Mrs. Sam Byars, of Birmingham.

Miss Augusta Evans will leave tonight for Omaha, Neb., called by the illness of her sister, Mrs. Bert Higgins.

Mrs. M. S. Ellis has gone to Iuka, Miss., to visit relatives.

Mrs. O. L. Newsom has returned from a visit to Atlanta, Ga.

Mr. and Mrs. S. W. Haas of Atlanta, are visiting relatives here.

Mr. and Mrs. Darwin Bibb, of Hartsville, are the guests of Albany relatives.

Mrs. W. B. Smith went to Moorsville today to spend the week-end with Mr. and Mrs. Henry Zeitler.

Mr. and Mrs. Chas. Kortreich are here, but are leaving for Birmingham to visit U. S. Marshal and Mrs. Henry A. Skeggs, where Mrs. Kortreich will remain while Mr. Kortreich is abroad.

Mrs. Ed Burt of Shady Grove is visiting Mrs. Ben Simpson.

PERSONALS

Roy Wyatt returned yesterday from a trip through Central Kentucky.

Barrett Shelton, sporting editor of the Albany-Decatur Daily, published at Albany, Ala., spent Sunday here with his grandmother, Mrs. W. C. Sheppard. Mr. Shelton is perhaps the youngest sport writer in the South and is a son of Mr. and Mrs. W. R. Shelton, formerly of Columbia—Maury Democrat, Columbia, Tenn.

W. B. Smith returned to Birmingham today.

Roy Holland and Ed Eicherberger have returned to Winchester, Tenn., after a visit to their Aunt, Mrs. W. C. Holland.

Julian Bibb, Jr., is improving, after a serious illness.

Ralph W. Cowart is now at Troy and is expected in Albany about the first of next week.

Muriel Ziff is expected to return Sunday from Atlanta, where he visited relatives. His aunt, Mrs. John Kirk, and son, will accompany him.

Barrett Shelton returned Thursday from Columbia, where he visited his aunt, Mrs. W. K. Shaddon.

H. B. Zeitler was over from Moorsville Thursday. He was accompanied by his daughters.

DIED AT NASHVILLE ON WEDNESDAY NIGHT

Mrs. Thomas L. Boswell died at Nashville on Wednesday from a complication of troubles. She was a sister-in-law of W. F. Boswell who was at her bedside when the end came. She is survived by two children, Wilbur Lettich and Thomas Boswell, Jr. Interment took place this afternoon at Nashville.

Legislators Must Work.

A novel method of forcing attendance in the chamber of deputies of the Republic of Argentina has been suggested by a member who is out of patience with those who draw their salaries from the public purse but fail to fulfill their constitutional obligation of regular attendance.

The suggestion is in the form of a bill providing for payment per day to deputies instead of a lump sum every month. Failure to answer the roll call is equivalent to absence, and the measure provides that no deputy shall receive his pay for days when he is absent from the regular sessions.

Land for National Forests. The national forest reservation commission has just approved for purchase 48,581 acres of land for national forests in the White mountains, Southern Appalachians and Arkansas.

The largest tracts are in the White mountains, where 31,022 acres in Carroll and Grafton counties, New Hampshire, and 1,220 acres in Oxford county, Maine, were approved for purchase at an average price of \$7.15 per acre. These lands include the scenic peaks of Mount Chocoma and Mount Pangu, much visited by tourists and made accessible by trails maintained by the Chocoma club.

The Main Chance. The outcome of a proposal frequently depends upon the income of the proposer.—Boston Transcript.

HOMESICK FOR ARCTIC SNOWS

No Affection About the Longing for Far North That is Experienced by Explorers.

If you are of ordinary health and strength, if you are young enough to be adaptable and independent enough to shake off the influence of books and belief, you can find good reason to be as content and comfortable in the North as anywhere on earth.

If you remember that all of us who have spent more than a year "living on the country," are quite of the Eskimo opinion that the food on earth is better than caribou meat, and if you have any experience in your life as a hunter anywhere, you will realize that in the evenings when we sit in these warm snow houses, feasting with keen appetites on unlimited quantities of boiled ribs, we have all the creature comforts.

What we lack, if we feel any lack at all, will be possibly the presence of friends far away, or the chance to hear opera or see the movies. At any rate, it is true that today in the movie-infested city I long for more snow house evenings after caribou hunts as I never in the North longed for clubs or concerts or orange groves. And this is not peculiar to me. The men who have hunted with me are nearly all of the same mind—they are either in the North now, on the way back there by whaling ship, or eating their hearts out because they cannot go.—Vilhjalmur Stefansson in Harper's Magazine.

Probably Envious.

"After a few months in other states, I was returning to Indianapolis," remarked a traveling salesman, "and I don't mind telling you I was glad to be getting back home. As I sat down beside the stranger I told him how good it was to be back in the land of cornfields.

"So we started to talk about the beauty spots of Mother Nature. It is nothing more than natural for a hoosier to talk about his own state. And I had to ask him whether he had ever been in Brown county.

"The stranger looked out of the car window a minute, saying softly to himself: 'Brown county, Brown county.' When he looked around at me again he said:

"Yes, I have been there. That's the place where the squirrels have to carry a lunch with them when they go across the county, is it not?"—Indianapolis News.

Flowers of Poland.

According to an English newspaper correspondent who recently reported a tourney he had made from Paris to the Polish capital, the most impressive spectacle that he saw was the mantle of blossoms, clustered profusely, which fringed the highways and byways about Warsaw. "All the wars of Poland," he writes, "could not check the new life that came riding through her borders at the head of the advancing spring: sprays of lilac found place in the gray caps of Polish lancers, tulips and chestnut leaves, tokens of the new lawn, in the garb of peer and peasant. Everywhere was spring yielding back a measure of her everlasting rights. But the flowers never took much notice of the war even 'at the front.'

Runs News Stand Without Hands.

There is a boy running a news stand on Union square, New York city, who has no hands. He opens and closes his stand, opens and folds his papers and passes them out to customers without delay or difficulty, and makes change like an expert.

Lou Young is his name. He lost both hands in an explosion when thirteen years old, but that handicap did not hinder him from going into business and making a success of it.

"The cripple who has spunk is as good as anyone else," he says.

Everybody Laugh!

The girl who laughs because she is sunny-hearted, and finds things to enjoy as she goes along, adds enjoyment to others as they go along. There is something in a smile that calls out a smile, and spontaneous laughter is the most catching thing in the world. No one who hears a joyous laugh is likely to scowl in response.

Extracting Salt From Ocean.

Experiments in Norway with a view to extracting salt from ocean water by means of electricity have been successful, and two salt factories will be started for this purpose in the future. Each factory is calculated to produce 50,000 tons of salt a year for a start, but they will be so built that the production can be brought up to double the quantity, if necessary. Besides the salt, different by-products will be made.

Where Blame Lies.

Life starts most of us out with an excellent endowment of strength. It is our own abuse of this strength that brings about our ailments. Life starts most of us out with courage and will. It is our own neglect of these qualities that sets courage and will dwindling. Life starts most of us with very good looks or with looks that are good enough. It is our own neglect of personal care that makes us plain looking.

Ask Many Questions.

An assistant depot master at Paddington, London, took, by means of a number-recording watch, a record of the number of questions asked by the public during a single week. The total was 2,183. Some of the questions were extremely foolish.

"BAYER CROSS" ON

GENUINE ASPIRIN

"Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Always buy an unbroken Bayer package which contains proper directions to safely relieve Headache, Toothache, Earache, Neuralgia, Colds and pain. Handy tin boxes of 12 tablets cost but a few cents at drug stores—larger packages also. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.—Advertisement.

AMERICAN GIRLS CAN STOP WORRYING; ONE DOUGHBOY IN 4000 WEDS OVERSEAS

(International News Service.) NEW YORK, Aug. 15.—All those girls who are fearful that French and British maids are going to capture the future husbands of American can now quit worrying.

With practically all the boys home figures show that only about one doughboy in every 4,000 who went over brought back a bride. Estimates have run considerably higher with no definite way to check up.

Miss Katherine Wakefield, a welfare worker, who has played Big Sister to all the Marcelles, Yvones, Yvettes, Marys and Bridgets who came through New York, declares that the total number to pass through the port of New York will not be

greatly in excess of 3,000. Counting those who have entered the country through other ports, and the few that are still to come, it is doubtful if the final figures will show that more than 5,000 doughboys were captured by the girls over there.

Over Bones of Failures.

Epitaphs in the Cemetery of Failure: He lacked tact; worry killed him; he was too sensitive; he couldn't say "no"; he did not find his place; a little success paralyzed him; he did not care how he looked; he did not guard his weak point; he was too proud to take advice; he did not fall in love with his work.

DOINGS OF THE VAN LOONS

Arrested on Charge of Allowing 11,000 Pounds of Meat Rot

LOUISVILLE, Aug. 15.—Howell Thomas, resident manager for Armour & Co., one of the big five packing concerns, addressed the state food commission here on "What the packers are doing to reduce the high cost of living." As he stepped from the platform a deputy United States marshal placed him under arrest on a warrant charging food wastage. The

warrant charged that 11,000 pounds of meat was allowed to rot in storage here, when there was a large demand for it in trade.

Tarver Convicted in Seduction Case

Raymond Tarver, young white man, was convicted yesterday in the Circuit court on a charge of seduction and sentence will be pronounced by Judge Floyd Tate, supernumerary judge of Alabama, who is presiding at this term.

The courtroom was cleared yesterday when the introduction of testimony was begun. J. N. Powell, of Falkville, assisted Solicitor D. C. Almon and Deputy Solicitor T. C. Almon in the prosecution. John R. Sample, of Huntsville, defended Tarver. The principals are members of prominent Morgan county families.

Calomel Today! Sick Tomorrow!

I Guarantee Dodson's Liver Tone

Don't take nasty, dangerous calomel when bilious, constipated, headachy. Listen to me!

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start

your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

BASEBALL SCOUTS COMBING MINOR LEAGUES FOR YOUNG PLAYERS WITH VIEW TO BOLSTER UP 1920 MAJORS

By JACK VEIOCK,

International News Sports Editor.
NEW YORK, Aug. 15.—The "ivory hunters" are making the most of the open season for combing the minor leagues in search of promising young players who will be used to bolster major league teams in 1920.

Big league scouts are snooping about everywhere, and a majority of them are covering more territory than usual because talent of the type demanded by managers in the big show is scarce.

The war kept many a young player out of the game for a season or longer and forced many a minor league club to close its park in 1917 and '18. As a result the minors have scarcely settled down to their former level, and where a league used to be known for its class, it is difficult today to size up a player by judging his showing in a few games. The scout must know what kind of ball the league is putting up to be able to figure on the class of any one player, even though he may have all the earmarks of a coming star.

It is the business of the scout to pick up good ones and shun the lemons; to prevent his employer from spending money on material that

Prisoners Raid Bootleg Evidence in Next Cell

(International News Service.)
PARIS, Ill., Aug. 15.—Sheriff Sizemore seized some liquor in a bootlegging raid near here. For safekeeping he stored it in the county jail. A cell was graced by its presence. Adjoining were prisoners whose dust-covered throats and parched lips caused them untold agony. But the dust and parchedness remained not long. One of them conceived a brilliant idea. He secured a mop handle, to which a hooked wire was attached. With this the enemies of society managed to extract and empty an entire case of pint bottles of whiskey. Bottles they could not draw through the bars were emptied by tilting up the larger portion of the bottle outside the bars. When the discovery was made by the sheriff the prisoners suspected of having taken the liquor were locked up in cells by themselves.

London Sitting on a Volcano of Explosives

LONDON, Aug. 15.—London has virtually been sitting on a volcano of dynamite, T. N. T. and other high explosives, and now that the war is over, discussion has arisen whether this volcano shall not be shunted elsewhere.

When the armistice was signed there were 10,000 tons of explosives stored in flimsy, non-fireproof buildings at Woolwich, which is just six miles from the Bank of England and in a populous district of East London. Had a German bomb ever hit this explosive "dump" not enough of south-east London would have been left intact to start a village.

Out of 172 buildings, each containing more than a ton of explosives, only fifteen comply with government regulations imposed on private manufacturers for storing explosives, says a government report. Woolwich is a state arsenal.

An investigation resulted in two reports, one recommending removal of the arsenal to some more sequestered district less vulnerable to air attack, while the other recommended the arsenal stay where it is, for the vulnerability of Woolwich has from the air soon will be shared by the whole country as the power of aeroplanes increases.

Meanwhile the reports suggest that the government place as many orders as possible at Woolwich for tanks, mechanical transport, naval hydraulic mountings and other government stores not now produced there.

NAVY RECRUITS LION TAMER

(International News Service.)
TERRE HAUTE, Ind., Aug. 13.—Naval recruiters came near breaking up a carnival company when they enlisted six embryo "sea dogs." The boss canvasman was among the half dozen and so was the lion tamer.

Snakes of Snake Run Keep Minister Busy

RONCEVERTE, W. Va., Aug. 15.—Snake Run, some few miles back in the wilds from here, is well named, according to the Rev. H. B. Stoneham. The clergyman conducted services there Sunday. While on his way to the Sunday school a little boy discovered a large yellow rattlesnake, which was killed. After church services began a large rattler was found near the door. Coming home another yellow rattler was seen and killed. At the home where the minister dined a child saw a copperhead sticking his head through a knothole and grasped it. The snake was killed in time to save the child. The same day in the same vicinity a rattler with 18 rings was killed.

Daily Want Ads will sell your farm.

needs more seasoning. Hence the work of the scout this year has been more difficult than usual, and he has been forced to look over players with greater care.

Young outfielders who can hit the ball are in great demand. They are scarce as hen's teeth. So are good young shortstops, but good shortstop recruits are always scarce. Pitching material seems to be fairly plentiful, and if reports from the minors have not been exaggerated there will be some crack young pitchers ready for a fling at the big show by the time the spring training season rolls around.

Among the veteran scouts who are so busily engaged in the hunt for talent this year are Dick Kinsella and Artie Devlin, who do the sleuthing for John McGraw, Jimmy Malloy and Otto Knabe are doing like service for the Chicago Cubs.

Larry Sutton, the veteran who brought out such players as Zach Wheat and Jake Daubert, is scouting for the Phillies, while Gene McCann is searching for ivory for the Cincinnati Reds.

Charley Barrett is sleuthing for the Cardinals. Billy Murray for the Pirates. Mique Finn for the Dodgers and Jimmy Turner for the Boston Braves.

Bob Connery, Bob Chiks and Joe Kelly represent the keen-eyed Brigade employed by the Yankees, while Ed Walsh, only a few years ago the greatest star of the Chicago Sox, is scouting for Comiskey. Joe Engel is with Washington this year and Ira Thomas is searching the sticks for Connie Mack. Lee Fohl, until recently manager of the Indians, is now doing scouting duty for Jim Dunn, along with Bob McAllister. Detroit has Billy Sullivan and Bill Doyle; Boston has Hugh Duffy and Ed Holly and Bobby Quinn and old Joe Sugden, veteran among veteran catchers, are the "star" hunters for the St. Louis Browns.

SENDS CASH TO LAUNDRY.

(International News Service.)
SCRANTON, Pa., Aug. 15.—L. Mendel sent a bundle of clothing to a local laundry before he remembered that he had hidden \$950 in cash in some of the pockets. Rushing to the plant he learned that an honest employee had discovered the roll and the money was returned.

Where Can I Find Relief From Itching, Terrifying Eczema?

Question on Lips of Afflicted.

There is a harassing discomfort caused by Eczema that almost becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be

reached by going deep down to its source, which is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S., which acts by cleansing the blood. Get a bottle to-day and you will see results from the right treatment. Medical advice free. Address Medical Director, 48 Swift Bldg., Atlanta, Ga.

The Old Reliable Peter Schuttler Wagons

Made in One Factory Since 1843

Strongest Lightest Draft Most Durable

Every piece of every wagon thoroughly air dried two to four years before using. Every piece hand painted with White Lead and Oil. Every part fully guaranteed. Wide track. Beware of narrow track wagons. They will not fit ruts in the road and cause continual annoyance in driving, and narrow beds do not carry a load for the wagon. Let us show you the best wagon in the world before you buy.

PATTERSON MERCANTILE CO.

Albany, Ala.

"Come children - biscuits and jelly."

And do they come! No need to call them, when Mother stands waiting, with those delicious hot, crisp biscuits spread with butter and jam. H-m-m-m, they can taste them beforehand, rich, white, flaky, and so nourishing for their little bodies.

Children love good biscuits. They go right to the spot with them. And there's a special quality and flavor in baking made from

Valier's Dainty Flour.

because it is such an unusually fine flour, milled with the utmost care and slowness to obtain the finest texture and taste. The selected soft winter wheat used in Valier's Dainty Flour is the best grown. We obtain it at a premium.

Try Valier's Dainty Flour. The family will say the baking was never so good. The extra quality not only means finer bread, cake and pastry, but makes it more economical. And you need less lard with Valier's Dainty Flour.

Phone your grocer today for a sack of Valier's Dainty Flour.

VALIER'S
PICNIC
Self-Rising
FLOUR

It's a high-grade Valier Flour with self-rising ingredients, mixed in the proper proportions. Requires no salt or baking powder. Try a sack. Brock & Spight Co., Dist. Decatur.

Who Withstand the Heat of
Summer Better Than the Weak

Sluggish Livers

Who are feeble and younger people
who will be strengthened and enabled to
withstand the heat of summer by tak-
ing TASTLESS CHILL TONIC. It purifies
the blood and builds up the whole sys-
tem soon feel its strengthening, invigor-
ating.

are quickly enlivened by Granger's Liver
Regulator. A dependable vegetable rem-
edy for liver complaints, constipation,
dyspepsia, and indigestion. Promotes a
healthy condition. Purely vegetable.
Non habit-forming. Sold by druggists
everywhere. 25c per box. Granger Med.
Co., Chattanooga, Tenn.

IT'S THE GREATEST THING I EVER SAW

"I Eat Better, Feel Stronger, and
Sleep Well Since Taking Dreo."

"This medicine Dreo, that every
one is boasting so highly, certainly
deserves every good word said for it,"
said T. A. Rankin, that popular man
at the Standard Oil Co. Service Sta-
tion in Huntsville, Ala.

"For years I have suffered from
extreme nervousness, indigestion, con-
stipation, and a general rundown
condition," he continued. "Every-
thing I ate seemed to lay heavy in
my stomach and ferment and caused
me to be all bloated up with sour
gas. Really at times I would do
without eating at all, rather than
suffer as I did from the pains and
gas. I was very badly constipated
and had to be taking medicine every
night, and I hardly knew what it was
to get a full night's rest on account
of my nervousness. I was getting in
a pretty bad condition, and losing
flesh and strength all the time. I
fell off to where I was so weak I
could hardly keep up with my work. I
had tried many of the different medi-
cines that were advertised to help
people in my condition, but none of
them helped me. I was thinking that
I would never feel like myself again,
when Dreo came along, and so many
people were talking about it, that I
decided to give it a trial, just as I
had the others, and I am certainly
happy that I did, for today I am feel-
ing better than I ever remember feel-
ing in my life. My constipation is
cured entirely and I go to bed and
sleep like a baby. I think Dreo is a
wonderful medicine, and never miss
a chance to tell my friends about it,
and you can put this in the paper, too,
if you care to."

Dreo is now sold by all up-to-date
druggists and is highly recommend-
ed in Albany by Albany Drug Co.; in
Decatur by Hilda Drug Co. (Adver-
tisement.)

CAUSED A CHANGE IN MIND

Circumstance That Made Mill Owner
Somewhat Relax His Ideas About
Strict Discipline.

"I personally began with the idea
that people might be hired and good
work gained from them," Julian S.
Carr, Jr., in System, writes. Mr. Carr,
who is president of the Durham Hos-
tery mills, goes on: "I thought in my
youth that rules made order and that
a certain military discipline was es-
sential; that it was foolish to humor
people and all that, nor was I going
to recognize certain local traditions
every day on which no work should
be done. For instance, I made up my
mind that quitting work to go to the
circus was not in accord with the best
industrial practices."

"The first circus came to town about
three months after we took charge of
the mill, and I was keen for the test.
We posted positive orders that the reg-
ular hours of work were to be ob-
served on that day, and that any person
who went off to the circus would be
discharged. The full force reported
as usual on the morning of circus day,
and I went home to dinner confident
that at last we had brought order.
It gave me a bit of a pang, for I
should have liked to go myself."

"But duty is a stern master, and
reflecting on that fact I hurried back
to the mill. Noticing a crowd in a
side street, I stopped to look. It was
our whole mill force, wending its way
to the magic tent. I went
along myself, and resolved that, al-
though abstract rules were well
enough, a bit of common sense and
knowledge of human nature might
profitably be blended with them. How
much of our labor trouble generally is
due to enforcing countless rules with
military exactness?"

MANIFOLD USES OF THE OX

Animal May With Truth Be Said to
Be Most Useful of All the
Domestic Animals.

Of all our domestic animals the ox
is certainly the most useful, writes
Henri Fabre in Our Humble Helpers.
During its lifetime it draws the cart
in mountainous regions and works at
the plow in the tillage of the fields;
furthermore, the cow furnishes milk
in abundance. Given over to the
butcher, the animal becomes a source
of manifold products, each part of its
body having a value of its own. The
flesh is highly nutritious; the skin is
made into leather for harness and
shoes; the hair furnishes stuffing for
saddles; the tallow serves for making
candles and soap; the bones, half cal-
cined, give a kind of charcoal or bone
black used especially for refining
sugar and making it perfectly white;
this charcoal, after thus being used,
is a very rich agricultural fertilizer;
heated in water to a high temperature,
the same bone yields the blue used by
carpenters; the largest and thickest
bones go to the turner's shop, where
they are manufactured into buttons
and other small objects; the horns are
fashioned by the maker of small wares
into snuff boxes and powder boxes; the
blood is used concurrently with the
bone of black in refining sugar; the
intestines, cured, twisted, and dried,
are made into strings for musical in-
struments; finally, the gall is fre-
quently turned to account by dyers and
cleansers in cleaning fabrics and par-
tially restoring their original luster.

Curious Clubs.

The recent announcement that an
English "Bald-Headed Men's Club" had
just met—the first time since 1916,
owing to the war—serves to recall one
or two odd clubs.

"The Fat Man's Club," for instance,
was known to exist in Paris in 1897.
Its heaviest member turned the scale
at 336 pounds and the chief qualifica-
tion for membership was to weigh at
least 220 pounds.

About this time there also met in
New York the "Society of the Pointed
Beards"—a most exclusive club. No
one was eligible unless he had a care-
fully cultivated beard of natural
growth and terminating in one sym-
metrical point half an inch from the
apex of the chin.

At two club dinners in 1898 even the
celery was served with its leaves
trimmed to a point.

Thomas a Kempis.

"Here in the service of the Lord
Thomas a Kempis lived and wrote
The Imitation of Christ," are the
words that appear on the foot of
the monument to the author recently
erected at Zwolle. In a gentle spot,
surrounded by ancient oaks and firs
and with shrubbery around, this mon-
ument stands on a hill which was
presented for the purpose by the van
Royen family. The monument is in
the shape of a cross with the mono-
gram of Christ and the symbols of the
four evangelists. The inscription on
the main part is "In Cruce Calus."

Many subscriptions were received for
the monument as soon as the plan was
suggested in 1916. Queen Wilhelmina
was among those who gave.

Coating Iron With Lead.

Lead as a substitute for tin as a
coating for sheet iron, iron wire and
wire gauze was strongly advocated at
the Buffalo meeting of the American
Chemical Society by Charles Basker-
ville, who exhibited some specimens
of a process worked out by him.
Iron shingles, so treated, have been
exposed to the weather in a roof test
for two years and eleven months and
show no signs of rust. They may be
bent without cracking the coating and
exposing the iron. Chicken wire so
treated is quite as good as the galv-
anized and cheaper to produce.

For Bed, Board and Laundry.

Here is a perfect gem of misapplied
English from a woman answering an
advertisement for a French governess
"au pair": "I know a little English,
and could give easy, at once, lessons
in French, for which I will be nour-
ished, lying down and bled, who,
I think, are the conditions 'au pair.'"
—Boston Transcript.

How the Cricket Sings.

The wings of a cricket are folded
horizontally and form when closed
slender, thread-like tapering points be-
yond the wing covers. It is supposed
to be by friction of the wing covers
against each other and from a pecu-
liarity of their structure, that the
males produce the sound which makes
these insects so well known.—Chris-
tian Herald.

CALOMEL ROBBED OF ITS NAUSEA

Medicinal Virtues Retained and Im-
proved—Unpleasant and Sickening
Qualities Removed. New Tablet
Called "Calotabs."

The latest triumph of modern phar-
macy is a "de-nauseated" calomel table-
tlet known to the drug trade as "Cal-
otabs." Calomel, the most generally
useful of all medicines thus enters
upon a wider field of popularity, puri-
fied and refined from those objec-
tionable qualities which have hereto-
fore limited its use.

In biliousness, constipation and in-
digestion, and in a great variety of
liver, stomach and kidney troubles
calomel was the most successful reme-
dy but its use was often neglected on
account of its sickening qualities.
Now it is the easiest and most pleas-
ant of medicines to take. One tablet
on the tongue at bedtime with a swal-
low of water—that's all. No taste,
no griping, no nausea, no salts. A
good night's sleep and the next morn-
ing you are feeling fine, with a clean
liver and a big appetite. Eat what
you please. No danger.

Calotabs are sold only in original,
sealed packages, price thirty-five
cents. Your druggist offers to re-
fund the price as a guarantee that you
will be thoroughly delighted with Cal-
otabs.—(Advertisement.)

ESSEX LEADERSHIP PROVED BY RECORD OF ACHIEVEMENTS

Establishing new automobile standards of
economy, endurance and performance, the Essex
has captured more worth while records than have
ever been won by any other stock car except the
Hudson in such a short period of time. The fol-
lowing are but a few of its achievements:

An average of 23 miles to the gallon of gaso-
line in an official 115-mile test in San Francisco.

Accelerated from standing start to 20 miles an
hour in 2.5-6 seconds; to 30 miles in 5.2-3 sec-
onds; to 40 miles in 8.5-6 seconds; and to 66 miles
in 34 seconds with top and windshield up in tests
made in Milwaukee and Los Angeles.

Broke all records in competition against much
larger cars in 110-mile race over mountainous
course between Sacramento, Calif., and Lake
Tahoe, covering the distance in 3 hours and 3 min-
utes, or 19 minutes faster than the best previous
record which was made two years ago by a Hud-
son.

Won first place in the light car class and sec-
ond place against the entire field in famous "Rin-
of-the-World" contest at San Bernardino, climbing
eight miles to an elevation of nearly 5,000 feet in
19 minutes 4 seconds. The only car to make bet-
ter time was one costing nearly twice as much and
having a motor more than twice as large as the
Essex.

Broke all records in race around the Island of
Oahu in Hawaii, making the dangerous, 85-mile
course in 2 hours and 42 minutes, or 16 minutes
better than the previous record. Also climbed Pele
Hill in Honolulu in high gear, a feat never per-
formed by any other car except a Super-Six.

First of twelve contestants to finish in the 1919
endurance run from Stockton, Cal., to the Yose-
mite, making a perfect score and completing trip
within fifteen seconds of its schedule time.

Made Fillmore Hill in high gear, declared to
be the greatest feat ever performed in San Fran-
cisco by any car, no other automobile ever having
officially surmounted this hill in high gear.

Conquered Baxter Street Hill in Los Angeles
in 19.2-5 seconds, the best previous record being
made by a Hudson in 1917 which surmounted the
hill in 21.2-5 seconds.

Just a Ride Makes A Hundred New Owners Are Added Daily —Each a Warm Supporter of the Essex Men Want the Essex

Surely no car has ever equaled the Essex in
the way it has been endorsed by the public.
From the very first it has been advertised
just as we said it would be, by what people
had to say for it.

You remember we announced the Essex
would have to speak for itself. Its fate was
left with the people. And now you can judge
what the verdict has been.

One Hundred Owners Added Daily

Deliveries at this writing exceed 10,000
cars. An average of 100 new buyers are get-
ting their Essex cars every day.

Such a production would be large for many
older organizations. But it is not half equal
to the demand that there is for the Essex.

Sweden Ordered 5 Then Cabled for 75

The first shipment of Essex cars reached
Sweden a few days ago. The initial order was
for 5. But on the day they were unloaded
the dealer cabled for 75 to be shipped im-
mediately.

That is significant, for Sweden is one of
the countries where gasoline costs nearly a
dollar a gallon. Even before the war Euro-
pean countries did not take readily to Amer-
ican cars. Only the light, small, inexpensive
cars had a market then.

Cost of operation was the big item. Gaso-
line and oil prices made large cars imprac-
tical.

But the Essex just met the needs. It has
the sturdiness and dependability Europeans
had never attributed to moderate priced Amer-
ican cars. The Essex met their demands
for economy and low operating cost.

And Those Advantages Are Important Here

Americans rather than put up with the
customary objections of light low priced cars,

more willingly paid the price that obtained
the degree of elegance, comfort and perfor-
mance they wanted.

But the Essex seems to have filled the need
as we expected it would. It answers the de-
mand for moderate first cost. It meets the
inexpensive cost and maintenance situation
and, of course, it gratifies the taste in appear-
ance and performance.

How Everyone Talks For the Essex

They tell their friends what they have
learned about it.

Any dealer can tell you of person after per-
son who has placed orders with him as the
result of a ride they have had with some
friend. As a test of how it stands in the
opinion of motorists in general, or even the
man in the street, mention the Essex any-
where you might be in such a way as to pro-
voke a discussion of it.

The result will be interesting. You aren't
likely to hear a single adverse criticism. But
you will probably conclude everyone is in-
terested in selling you an Essex.

That is the Essex Selling Force

It is just what you will hear from any
group of motorists. Everyone seems bent
on telling everyone else what a fine car the
Essex is.

Note the manner in which they praise it.
People judge it in comparison with other cars
of merit that they know.

That probably explains why Essex per-
formance and quality is compared to large,
high-priced automobiles.

There is no other measure by which Es-
sex can be described.

When will you take your ride in an Essex?
Your enthusiasm will be as great as it now
is with close to a million others.

Essex boosters grow daily—and thus they
swell Essex sales.

Is it Possible to Legislate Life and Brains?

Swift & Company is primarily
an organization of men, not a
collection of brick, mortar, and
machinery.

Packing Plants, their equipment
and usefulness are only outward
symbols of the intelligence, life long
experience, and right purpose of
the men who compose the organi-
zation and of those who direct it.

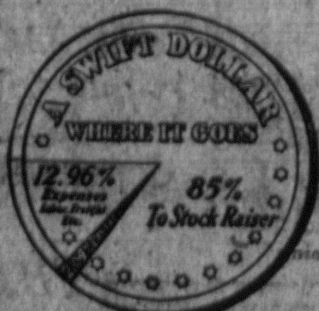

Will not Government direction
of the packing industry, now con-
templated by Congress, take over the
empty husk of physical property
and equipment and sacrifice the
initiative, experience and devotion
of these men, which is the life itself
of the industry?

What legislation, what political
adroitness could replace such life
and brains, once driven out?

Let us send you a "Swift Dollar."
It will interest you.
